

HØIBERG Brings Active Directory, Microsoft 365 and License Control Together in EasyEntra

HØIBERG
EUROPEAN PATENT ATTORNEYS

"It's so much easier to use than Active Directory."

Jan Hoff Larsen
IT Manager
HØIBERG

ABOUT HØIBERG

HØIBERG is a European intellectual property firm that counsels on all aspects of intellectual property rights, including patents and IP strategies, helping clients go from idea to profitable business.

Headquartered in Copenhagen, HØIBERG also has offices in Aarhus, Herning, Stockholm, Lund and Reykjavík, and works with clients such as Carlsberg and Nobel laureate Professor Morten Meldal.

As IT Manager, Jan Hoff Larsen looks after the firm's hybrid Active Directory and Microsoft 365 environment, from first-level support to senior-level tasks.

THE CHALLENGE: TOO MANY PLACES TO LOG IN

Everyday user administration at HØIBERG meant switching between on-premises Active Directory and Microsoft 365 in the cloud.

AD Users & Computers: Simple changes, such as editing a user's group membership, meant logging on to the Domain Controller and starting AD Users & Computers every time.

A separate license portal: Editing or changing licenses on a user account meant logging in to admin.microsoft.com.

License costs: The firm wanted a clear view of unused Microsoft 365 licenses.

Every kind of task: First-level support, senior-level work, recurring tasks, and ad-hoc requests all needed handling.

HØIBERG wanted one easy tool with direct access to everything Jan needs to change or edit.

CHOOSING EASYENTRA

HØIBERG already used Easy365Manager, EasyEntra's sister product, and was introduced to EasyEntra from there.

Easier than AD Users & Computers: Jan chose EasyEntra because it is much easier to use than the 26-year-old application AD Users & Computers provided by Microsoft.

A familiar team: Coming from Easy365Manager, HØIBERG already knew the team behind EasyEntra.

An easy choice: For HØIBERG, choosing EasyEntra was easy. Other products meant installing extra servers, complex configuration, a different security architecture, and a long implementation, and they cost more. EasyEntra needed none of that. It runs as a client-side tool on HØIBERG's existing setup and was up and running quickly.

IMPLEMENTATION: VERY EASY TO SET UP AND MAINTAIN

Jan describes implementing EasyEntra as very easy, and keeping it up to date is just as simple.

Key Benefits:

Very easy to implement: Implementing EasyEntra in HØIBERG's hybrid environment was straightforward.

Updates in a few clicks: Jan opens Settings and downloads the latest version. In his words: *"Very easy!"*

Flawless support: Any issues have been solved very fast, and Jan rates the support team's handling as *"flawless."*

A perfect fit: Asked how well EasyEntra fits into HØIBERG's IT operations, Jan answers: *"Very well."*

LICENSE MANAGEMENT MADE EASY

License management in EasyEntra is *"super easy,"* says Jan. He changes licenses directly on the user account, and the unused-licenses report gives him a quick overview that *"lets me keep license cost down to a minimum."*

DIRECT ACCESS, ONE PLACE

EasyEntra has become the single place where Jan handles user administration across Active Directory and Microsoft 365.

He no longer logs on to the Domain Controller to edit a user's membership, or logs in to admin.microsoft.com to change licenses on a user account. It's all done directly in EasyEntra.

Jan names three primary benefits: quick access to user accounts and devices, easy license handling, and a great reporting tool.

As Jan puts it: *"Time and money are saved when using EasyEntra."*

"I have direct access with EasyEntra to everything I need to change or edit in Active Directory and Entra ID."

– Jan Hoff Larsen, IT Manager, HØIBERG

SECURE, AND BUILT AROUND CUSTOMER NEEDS

Jan has had no security concerns with EasyEntra, a good match for a D-mærket-certified firm built on confidentiality.

Feature requests are handled just as well. When Jan asked for a multi-line Info field and for mailbox folder permission management, both arrived in new versions. On the Info field, the solution *"turned out better than I had expected."*

A TOOL JAN RECOMMENDS

Jan would recommend EasyEntra to other organizations that want simple, central control of Active Directory, Microsoft 365, and licenses.

On working with EasyEntra, he adds: *"Requests or new features are taken seriously and implemented very quickly."*

Annual License includes:

Unlimited Installations and IT Admins: The license includes unlimited installations and access for all IT team members, enabling efficient collaboration without extra costs.

Comprehensive Support and Upgrades: The license includes unlimited support and regular updates, ensuring the tool stays up to date with evolving Microsoft 365 requirements.

No Additional Infrastructure Needed: EasyEntra operates as a client-side tool, eliminating the need for costly infrastructure investments.

Contact EasyEntra for more information and get a free 30-day trial.
