

Animal Protection Denmark Streamlines IT Administration with EasyEntra

ANIMAL PROTECTION DENMARK

"EasyEntra has transformed our daily IT operations by simplifying user management across Active Directory and Entra ID. Its intuitive interface has made first-level support tasks much easier, reducing errors and enhancing overall efficiency."

Henrik Nefling
IT- and Digitalization Manager
Animal Protection Denmark

ABOUT ANIMAL PROTECTION DENMARK

Animal Protection Denmark is the country's oldest and largest animal welfare organization. It is dedicated to protecting animals and advocating for their rights.

With a diverse team managing shelters, outreach programs, and advocacy efforts, efficient IT administration is essential to keep operations running smoothly.

The IT department supports a hybrid infrastructure, blending on-premises Active Directory with Microsoft Entra ID.

THE CHALLENGE: MANAGING A HYBRID IT ENVIRONMENT

Before implementing EasyEntra, Animal Protection Denmark faced several IT administration challenges:

Fragmented IT tools: The team had to navigate multiple platforms for user management, increasing complexity and inefficiencies.

Time-consuming onboarding and offboarding: Manual processes slowed down user lifecycle management.

Difficulties in first-level support: Providing quick and effective user support required a more streamlined approach.

High learning curve with other solutions: Alternative solutions were too complex and required extensive training.

These issues highlighted the need for a simpler, more efficient solution to manage their IT infrastructure.

WHY EASYENTRA?

IT- and Digitalization Manager Henrik Nefling discovered EasyEntra through LinkedIn and quickly realized its advantages:

Tailored for hybrid environments: Effectively manages both on-premises AD and cloud-based Entra ID.

Minimal training required: EasyEntra's intuitive interface ensures that support teams can use it with minimal onboarding.

No unnecessary complexity: Competing products had a steep learning curve, making them less suitable.

IMPLEMENTATION & IMMEDIATE IMPACT

The deployment of EasyEntra took **only five minutes**. The IT team gradually adopted the tool, experiencing immediate improvements in administrative efficiency.

Training was minimal, with users getting comfortable after just 1-2 hours of hands-on use.

Key Benefits:

Unified User Management: Easy access to AD and Entra ID from a single console for first- and second-level support.

Faster Onboarding and Offboarding: The organization has noticed significant time savings in user lifecycle management.

Reduced Errors: User creation and updates result in fewer mistakes, improving overall IT reliability.

Ease of Use: The simple and intuitive interface lets IT staff focus on core tasks rather than troubleshooting software.

SECURITY AND SUPPORT

Animal Protection Denmark has experienced no security issues or concerns regarding data protection.

The EasyEntra application is a standalone solution that communicates directly between the on-premises environment and Microsoft's cloud services, ensuring that data and credentials are not stored in any third-party systems.

When technical issues arose, EasyEntra's support team efficiently resolved them through brief online support sessions.

"The IT team gradually adopted the tool and saw immediate improvements in administrative efficiency.

***Training was minimal**, with users getting comfortable after just 1-2 hours of hands-on use."*

ANIMAL PROTECTION DENMARK

COST AND VALUE

The IT- and Digitalization Manager Henrik Nefling praises EasyEntra's strong pricing model, which offers excellent value with minimal indirect costs.

Installation takes just two minutes, and no additional infrastructure is required—ensuring a cost-effective solution for IT administration.

A PERFECT MATCH FOR IT OPERATIONS

Animal Protection Denmark considers EasyEntra “**close to a perfect match**” for their IT needs.

As new features continue to be introduced, the tool remains a vital part of their IT strategy.

RECOMMENDATION

"We highly recommend EasyEntra to other organizations. It simplifies IT administration, reduces errors, and significantly improves daily operations," says Henrik Nefling.

Annual License includes:

Unlimited Installations and IT Admins: The license includes unlimited installations and access for all IT team members, enabling efficient collaboration without extra costs.

Comprehensive Support and Upgrades: The license covers unlimited support and regular updates, ensuring the tool remains up-to-date with evolving Microsoft 365 requirements.

No Additional Infrastructure Needed: EasyEntra operates as a client-side tool, eliminating the need for costly infrastructure investments.

Contact EasyEntra for more information and get a free 30-day trial.
